Books and school supplies for the year have been \$43 82.

The whole number of different pupils registered during the year in all the schools is 117. The average attendance is 82.

The attendance has not been what it should, in some of our schools, and the school board has found it necessary to call upon the truant officer more frequently than usual. We believe that every child of school age, unless physically or mentally incapable, should attend school all of the time it is in session for the good of the children and the general good of the town. We intend to do all in our power to enforce the law and to secure better attendance, and we wish the parents would realize this necessity and use their influence to help attain a better condition.
